La sedia con telaio 4 gambe è certificata
• ANSI-BIFMA X5.4-2020
• EN 16139:2013+AC2013 2nd level

*The 4-leg frame chair is certified
• ANSI-BIFMA X5.4-2020
• EN 16139:2013+AC2013 2nd level*

Lemon è una completa collezione di sedute e tavoli, ideali per contesti di utilizzo outdoor, ma non solo.

La collezione è offerta in una curata selezione di colori e finiture, sia nelle versioni sedia che sgabello, sia nell'ampia gamma di tavoli e tavolini.

Lemon is a complete collection of seats and tables, ideal for outdoor use, but more than that.

The collection is offered in a refined and contemporary selection of colors and finishes, in both chair and stool versions, as well as in the wide range of tables.

La versione sedia è disponibile con o senza braccioli, e presenta un peculiare e distintivo design. Sedile e schienale sono infatti costituiti da 5 singole doghe in tecnopolimero.

Le doghe sono fissate al telaio senza alcuna vite a vista, enfatizzando la cura del dettaglio e le linee pulite ed essenziali della sedia.

The chair version is available with or without armrests, and features a characteristic and distinctive design. Seat and backrest are in fact made of 5 individual technopolymer staves.

The staves are attached to the frame without any visible screws, emphasising the chair's clean and essential lines.

Anche la versione sgabello mantiene il caratteristico design a doghe, ed è proposta con telai di due differenti altezze, entrambi impilabili e disponibili nelle 6 colorazioni della collezione.

The stool version also retains the characteristic staved design, and is offered with frames in two different heights, both stackable and available in the collection's six colours.

La sedia con telaio 4 gambe è certificata

- ANSI-BIFMA X5.4-2020
- EN 16139:2013+AC2013 2nd level

The 4-leg frame chair is certified

- ANSI-BIFMA X5.4-2020
- EN 16139:2013+AC2013 2nd level

Lemon, nella versione sedia, con e senza braccioli, e nella versione sgabello, consente una comoda impilabilità. La presenza di appositi distanziatori fissati sotto il telaio impedisce che le doghe in tecnopolimero possano danneggiarsi quando impilate.

Inoltre, la forma del telaio crea una solida e pratica maniglia nella parte superiore dello schienale, ideale per facilitare le operazioni di movimentazione della sedia. Questa caratteristica si presenta anche nelle versioni sgabello.

Lemon, in the chair version, with and without armrests, and in the stool version, allows for convenient stacking. The presence of special spacers fixed under the frame prevents the technopolymer slats from being damaged when stacked.

In addition, the shape of the frame creates a solid and practical handle at the top of the backrest, ideal for facilitating chair handling. This feature also appears in the stool versions.

Le sedute Lemon vengono affiancate da un'ampia gamma di tavoli, disponibili in diversi formati, dimensioni e colori, proposti con due differenti tipologie di piani: in HPL o in metallo. La struttura a tre gambe, oltre che esteticamente distintiva, è pratica da imballare e facilmente assemblabile.

The Lemon chairs are complemented by a wide range of tables, available in different formats, sizes and colours, offered with two different types of tops: HPL or metal. The three-legged structure is not only aesthetically distinctive, but also convenient to pack and easy to assemble.

I tavoli Lemon, nei formati a base centrale, nelle dimensioni media e alta, sono disponibili anche in una versione con piano ribaltabile. Questa funzionalità, associata alla struttura a tre gambe, permette di raggiungere una ottimale impilabilità orizzontale dei tavoli.

The Lemon tables, in medium and high heights with a central base, are also available in a version with a folding top. This feature, combined with the three-legged structure, allows for optimal horizontal stacking of the tables.

La cura del dettaglio della collezione si ritrova anche nelle strutture dei tavoli, con un piedino dal design in grado di dare completa continuità alla linea della gamba, e con la presenza di una cover in tecnopolimero nella parte di giunzione centrale delle tre gambe.

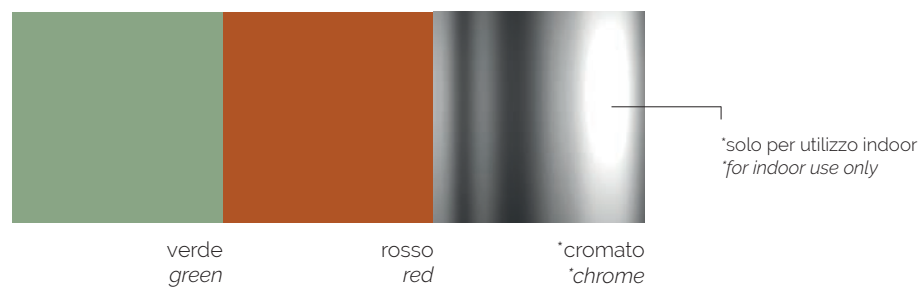

The collection's attention to detail can also be found in the table structures, with a foot design that gives complete continuity to the line of the leg, or with the presence of a technopolymer cover in the central joint of the three legs.
