La sedia con telaio 4 gambe è certificata EN 16139:2013+AC2013.
The 4-legs frame chair is certified EN 16139:2013+AC2013.

La monoscocca, la cover sottoscocca e i braccioli — nella sola colorazione nera — sono realizzati in plastica riciclata ricavata da rifiuto post-industriale. La collezione Gemma è conforme ai requisiti CAM.
The shell, the undershell cover, and the armrests — in the black version only — are made from recycled plastic derived from post-industrial waste.

Caratterizzata da linee essenziali e decise, Gemma è una sedia con monoscocca in tecnopolimero proposta per ambienti contract ma anche domestici.

La monoscocca poggia su un'ampia selezione di telai e basi che conferiscono alla collezione una grande dinamicità di impiego, dalle aree d'attesa, a quelle office e di coworking, fino a contesti didattici e di home office.

Characterised by its essential and decisive lines, Gemma is a chair with a technopolymer monoshell proposed for both contract and domestic environments.

The monoshell rests on a wide selection of frames and bases that give the collection great dynamism of use, from waiting areas, to office and coworking spaces, to educational and home office contexts.

Nell'ampia gamma di telai e basi offerte all'interno della collezione, è disponibile anche la versione sgabello, proposta con un telaio a 4 gambe con poggiapiedi.
Il telaio è offerto nel formato alto e in quello basso, entrambi impilabili.

Among the wide range of frames and bases offered within the collection, a stool version is also available, offered with a 4-leg frame with footrest.
The frame comes in a high and a low format, both stackable.

La collezione Gemma è proposta in un'ampia selezione di colorazioni.

Le monoscocche in tecnopolimero, le cover sottoscocca e i braccioli, sono disponibili nei classici nero, avorio e grigio, e in tre tonalità naturali e attuali: verde, giallo, rosso.
Questi sei colori si ritrovano anche nelle basi e nei telai, con l'aggiunta della finitura cromata.

The Gemma collection is offered in a wide selection of colors.

The technopolymer monoshells, under-shell covers and armrests are available in classic black, ivory and grey, and in three natural and contemporary shades: green, yellow and red. These six colours are also found in the bases and frames, with the addition of a chrome finish.

La sedia con telaio 4 gambe è certi icata EN 16139:2013+AC2013.

The 4-legs frame chair is certified EN 16139:2013+AC2013.

L'elegante cover sottoscocca in tecnopolimero contribuisce a valorizzare le linee di Gemma, caratterizzate da una dinamica linea di forza che corre lungo il retro dello schienale della monoscocca.

The elegant technopolymer undershell contributes to enhancing Gemma's lines, characterised by a dynamic line of force running along the back of the monocoque backrest.

La collezione mette a disposizione diversi accessori, come i piedini orientabili e il pannellino tappezzabile per il sedile.

The collection offers various accessories, such as adjustable glides and an upholsterable seat pad.

La versione con telaio Conference permette di ottenere uno stabile impilaggio verticale, garantendo una gestione degli spazi ottimale ed efficace. Questa tipologia di telaio è disponibile anche in una versione con ganci, che permettono di unire saldamente le sedie quando affiancate.

The Conference frame version allows for stable vertical stacking, ensuring optimal and efficent space management. This type of frame is also available in a version with hooks, which allows the chairs to be firmly joined when placed side by side.
