La sedia con telaio 4 gambe è certificata
EN 16139:2013•AC2013 Livello 1.
The 4-leg frame chair is certified
EN 16139:2013•AC2013 Level 1.

Una scocca in legno di faggio
o impiallacciata rovere poggiata
su una larga varietà di telai in metallo,
dal classico quattro gambe,
alla versatile base a 4 razze su ruote,
fino alla versione panca.

*A beech or plywood shell resting
on a wide variety of metal frames,
from the classic four-leg, to the flexible
4-star base on wheels, to the bench version.*

Xylo è disponibile anche in versione sgabello, con una scocca dedicata, dal caratteristico schienale basso.

Xylo is also available in a stool version, with a dedicated shell with a distinctive low backrest.

La relazione tra legno e metallo fa della collezione di sedute Xylo una soluzione d'arredo senza tempo, capace di trovare facilmente spazio in qualsiasi ambiente, dalle zone ristorazione collettive ai contesti domestici.

The relationship between wood and metal makes the Xylo seating collection a timeless furniture solution that can easily find a place in any environment, from collective dining areas to domestic settings.

La cura del dettaglio della collezione passa dalla lavorazione del legno alle eleganti e funzionali cover sottoscocca in tecnopolimero, ai piedini orientabili disponibili per i telai a quattro gambe.

The collection's attention to detail goes from the woodworking to the elegant and functional technopolymer underbody covers, to the adjustable feet available for the four-leg frames.

Le scocche, sia nella versione sedia che sgabello, possono essere rivestite con diversi materiali, dal tessuto, al cuoio, alla pelle.

The shells, in both chair and stool versions, can be upholstered in a variety of materials, from fabric to leather.

wooden shell

*faggio
*beech wood

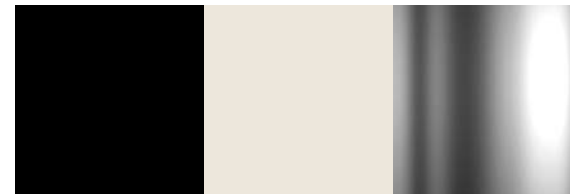

*impiallacciata
rovere
*plywood oak

*legno grezzo
da tappezzare
*raw wood shell
for upholstery

*L'utilizzo di legni naturali non assicura una resa estetica uniforme. Pertanto scocche di egual finitura potranno presentare differenze nelle venature e nella tonalità di colore del legno.

**The use of natural woods does not ensure a uniform appearance. Therefore, shells of the same finish may show differences in the wood grain and colour tone*
